Applications: Git and Heroku.

PROJECTS

MARKET TALK

Repository: <https://github.com/calvin-kim13/marketTalk> | **Live:** <https://calvin-kim13.github.io/marketTalk/>

- This project is a financial news and stock price application where users can search a stock ticker symbol in the search bar and that stock's financial data will appear below the default watchlist.
- The main area with the financial news updates to related news based on the stock searched. When the header link is clicked, the overall financial market news is displayed again.
- Leader of this three person project and handled all of the JavaScript, API fetch, and most of the CSS.
- Skills used: JavaScript, API, Bulma, HTML5, CSS3.

EXPERIENCE

Associate

Randall Lewis Center

2019 – 2020

La Verne, CA

Maintained a database of clients and created data entries for newer clients. Displayed great teamwork and communicated with team members to manage an organized database. Directly interacted with customers and provided excellent customer service.

Key Accomplishments:

- Recognized for my punctuality, ability to concisely communicate with the manager, and praised for being the most responsible, determined, and trustworthy employee.
